

# The Reason for Standard Oil Superior Service

Last week one of the 22,000 employees of this Company said:

"The reason why the Standard Oil Company (Indiana) is able to give a better service to the public is because the men and women of the organization are inspired by the high ideals which animate every act of the Company.

"We fellows who do the detail work are never asked, expected or allowed to do a thing which could make us anything but proud of our business. We are given the best products to sell and our prices are right.

"We meet competition fairly and in the open, and we know that we must secure business that way or not at all.

"We are treated as men among men and we are well paid for our efforts.

"That's why we are loyal, enthusiastic, devoted to our work, and that is why the patrons of the Standard Oil Company (Indiana) are getting such excellent service."

Every man who works for the Standard Oil Company (Indiana) is trained to understand the ideals of service animating the Company in all of its activities.

This training makes him feel that, to the people he serves, he is the Standard Oil Company (Indiana), and that he individually must carry the grave responsibility of maintaining the high standard of service which reflects the policy of the management.

It is this responsibility which makes every employee feel that he is a vital factor in the organization, and enables the Company to fulfill its obligation as a public servant.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Part at Home and Costs Little, Says Leading Doctor of Covington, Ky. Who Has Made Special Study of Catarrh.

### Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat, as a prolific breeding ground for germs, not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of mentholized Arcline mixed with enough boiled water to make a pint gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

THIS Chesterfield blend is so close that it's secret. It's our private, exclusive blend, the formula for which is closely guarded. It cannot be copied.

Experts take the unusually fine Turkish tobaccos—real Turkish, mind you, not so-called "Turkish"—and blend them with Domestic leaf of especially choice selection—fine, silky Blue Grass Burley and the sun-ripened leaf of old Virginia.

This blend brings out a new flavor—one that makes Chesterfields different and impossible to imitate. Every puff tells you that Chesterfields "Satisfy"!

And the moisture-proof package keeps 'em firm and fresh, whatever the weather.

**A Year of What?**  
Another year is before us, with all of its possibilities for good or ill, for success or failure.  
As we cross the border of 1920 how many of us are giving even a passing thought to the character of the course we are to pursue in the next twelve months?  
The commander who goes into battle in pursuance of a definite plan of action has every opportunity for success, but he who plunges in at random courts disaster and defeat.  
It is so in every sphere of life.  
If we would enrich the world by our individual presence we must have a definite plan in view, and that plan must be adhered to in the face of all obstacles.  
Accumulation of wealth is not the noblest aim in life. With prosperity we must have honor and integrity, peace and contentment, or the gold we amass becomes but dross which drags us down to the mire of degradation.  
Honor and integrity go hand in hand, and peace and contentment are their twin children.  
All are within the reach of every man and every woman who has the moral courage to begin the new year with a determination to do that which is right and just regardless of what friend or foe may think or say.  
It is easier to do right than to do wrong. In the one our conscience is clear and is a potent aid to us in the pursuance of an object. In the other we labor constantly in the shadow of fear, suspicious of mankind, and with a mind warped and distorted by the dread of exposure.  
For each of us it will be a year replete with something—but what will that something be.  
**Just Dues for Wasters**  
By a unanimous vote the house has passed the bill repealing all the war-time powers of the United States Housing Corporation, and di-

recting the immediate sale of all its property except certain dormitories for government clerks at Washington, which are to be held open another year. Since its inception the Housing Corporation has been the object of criticism. It is charged that practically every building operation it has undertaken has been attended with the grossest extravagance, needless delay, and little accomplishment in the way of providing accommodations for war workers.  
At the National capital its inefficient management has been especially obvious to senators and congressmen. Between the capitol building and the union station, a distance of three blocks, about \$2,000,000 was spent in erecting dormitories to house the hordes of girl war workers who fill the government offices. They were not commenced until several months after our entrance into the war, and were not completed until long after the armistice was signed. Investigation by a house committee has shown that profiteering attended the construction from the beginning, and that the salaries paid to those now in charge of the buildings are out of all proportion to the value of the service rendered.  
The vicinity of the Washington navy yard is the site of another large housing project. Scores of houses were erected at that point, but none of them has ever been occupied by a worker at the navy yard. It is charged by one member of the investigating committee that the houses were completely furnished at exorbitant cost, then the furniture removed and sold at a very low figure, refurnished again, and again cleared out at a further loss to the Government.  
With such facts before them, the authenticity of which they have been able to prove from personal observation, the house has determined to put an end to the organization responsible for them. It is not expected the bill will meet with serious opposition in the senate, where the sentiment against the Housing Corporation is quite as strong as in the house.  
There are some people who think the tariff will not be an issue in the coming campaign, but it is noticed that the president has devoted several paragraphs of his message to it. He is in favor of a protective tariff on dyestuffs and related chemicals. In other words, he believes in protection where he thinks it is needed. The manufacturers and producers of the country think they also have some ideas worth considering on the subject of commodities needing protection.  
The postoffice department indulges in its monthly program of passing the buck. This time the railroads are blamed for the delay of 85,000,000 letters because the Hines outfit missed train connections. Of course Hines will come out with a denial.

**Sap and Salt**  
By BERT MOSES  
Nothing succeeds big without big advertising.  
Some men never get anywhere because they never started anywhere.  
Hez Heck says: "A common mistake is selling baby carriages too soon."  
Eating apples was the original sin, but now it is considered perfectly proper.  
A gentleman is one who is just as polite to the hired man as he is to the preacher.  
The man who knows when to do the right thing without being told doesn't have to ask for a raise in pay.  
and they will probably wind up by blaming it all on Secretary Lansing, the official goat of the administration.  
The popular program for 1920 is to eat, drink, be merry, and pay the bill.  
The smile that won't come off is of little value to the world. It is founded upon nothing and is gauged by its origin.  
Many people have adopted the excellent habit of settling up all of their bills the first of the year.  
Radium is worth \$9,000,000 an ounce—and is accepted on subscription at this office.

**Here's Where The Fun Comes In**  
**He Thought He Was Deserted**  
Not many years ago a Rushville business house, located near the fire department caught fire. Firemen saw the smoke pouring forth from the front door, hatched the horses to the hose and ladder wagon and prepared to fight the blaze.  
The owner of the store, just as the department was ready to drive out of the building rushed to the entrance, shouting for help. He was astounded to see the firemen in their places, the horses pulling on the bits ready for action. All these years, he thought, he had been doing business close to the fire department, had been the friend of the firemen—and they would not come to his rescue in an hour of peril.  
"My God boys," he pleaded, "don't desert me now when my place of business is on fire."  
**HOSTILE**  
He looked the whole world in the eye—with suspicion.  
He smiled at everyone—contemptuously.  
He was always open to suggestions—if they agreed with him.  
He looked into the future—near-sightedly.  
He believed in advertising—his personal achievements.  
He rewarded ambition—with depreciation.  
He built up an organization devoid of spine.  
He was well liked—when away.  
He wanted production—he got propaganda.  
His employees worked diligently—for their pay.

It was a great mistake to "steer" the rural man and his wife to a grand tarcany hotel. The captain of the robber-waiters eyed the old pair askance and seated them near the hottest radiator and the worst draft table-7, the tipless torture chamber where no sane person would ever sit. A scan of the menu and father was up in the air. Lee cream was fifty cents a plate! The waiter glowered over them with sullen silence. Father finally said: "Abigail, I guess I'll have some ox-tail soup." Mother, in order to shatter the gloom, looked up at him with all the complacency that a woman can muster up under adverse conditions and said: "Rube, don't you think you're going awful far back for soup?"

Independents Play Scoutmasters at Shelbyville Tonight

The independent basketball team will go to Shelbyville tonight to play the Scoutmasters, an independent quintet, and Friday night will play Hope, Bartholomew county, at the Modern Appliance building here.

The local five will have a hard game tonight because Shelbyville is out to avenge the defeat suffered here a few weeks ago when Rushville won from them. The Shelbyville high school second team will play Morgantown as a curtain raiser tonight.

**Banished La Grippe Coughs**

Lewis Newman, 508 1/2 Northrand St., Charleston, W. Va.: "I am glad to tell you that Foley's Honey and Tar is the best remedy for lung trouble I have ever used. I have been down sick ever since January and nothing would do me any good. I was full of cold. I had the grip all winter until I got two 60c bottles of Foley's Honey and Tar. I used 1 1/2 bottles. I am glad to say I can't feel any more cold in my chest."

Foley's Honey and Tar Compound gives prompt relief from coughs, colds, hoarseness, tickling throat, whooping cough, spasmodic croup and bronchial coughs.

successes of the season.

The navy is a great place these days, say these musical recruiters. Never was there a time when the navy offered better opportunity to bright young men than it does today. Uncle Sam is going back to sea.

All navy schools are open now and a man enlisting can choose any trade or profession he wishes to learn. Many of the courses offered in these schools last six months of the two year enlistment. The credit gained in the navy medical de-

partment are accepted in medical colleges. The course in the naval aviation school takes 18 months for completion and is one of the most thorough in the country. Men who can qualify are especially wanted in the aviation service at this time. The recruiting party opened a recruiting office at the post office today and will be at the Grand hotel tomorrow.

**KNECHT'S O.P.C.H. Articles of Faith**

We believe in ourselves.  
We believe in the goods we sell.  
We believe when we make a sale of our goods we make a permanent friend.  
We believe in the business which we have spent twelve of the best years of our lives in upbuilding.  
We believe that the truth can be expressed by honest goods as well as by word of mouth.  
We believe in doing business not for the gainful thing alone, but for the just and honest things—gainful if possible.  
We believe in competitors, and we have a bunch of them, for they develop our resources, sharpen our wits and keep us from becoming dead to the world.  
We believe our business of selling wearing apparel of proved excellence for men and young men has been an unqualified success.  
We believe in doing business with our customers so that it will be a pleasure as well as a profit to both of us.  
We believe in advertising honest merchandise with an honest purpose in view.  
We believe the only way to lasting success in business is being honest and truthful with the public.  
We believe in marking our goods at the right "Price" the first time we mark them; not marking them up so as to be able to give from one-quarter to one-half off later on.  
We believe if you are square with the people, the people will be square with you, and we have lived up to our belief.  
Hence the success of "Knecht's O. P. C. H."

# Cushion Tires Cut Repair Costs Reports Jesse Hamilton

"Goodyear Solid Tires were original equipment on our truck which was placed in service nearly a year and a half ago. Following your recommendation, we had the front tires changed over to Goodyear Cushion Tires last summer, reducing vibration and repairs on our motor. We wish to thank you for the prompt service of mounting these tires while the truck was enroute from Connersville to Indianapolis."—Jesse Hamilton

SEVERITIES of transfer work had so far worn down the Goodyear Solid Tires on the front wheels of the Hamilton truck last summer as to menace the engine. It lacked adequate protection against road jars.

So we convinced Mr. Hamilton of the value of Goodyear Cushion Tires over Solids, for the front wheels, and applied them for him without an expensive delay, during one of his trips between Connersville and Indianapolis.

Since then he has had to pay considerable less for motor repairs, due to the effective manner in which the Cushions on the front wheels absorb the shocks.

Ordinarily these tough, resilient Cushion Tires are recommended for use as front wheel equipment on trucks up to 3 tons. Frequently they totally eliminate engine repairs during entire seasons.

Then on 1/4-ton and 1-ton trucks, they serve well as all 'round equipment, especially if the truck operates over rough areas, if it is required to carry fragile loads, if it must make quick deliveries.

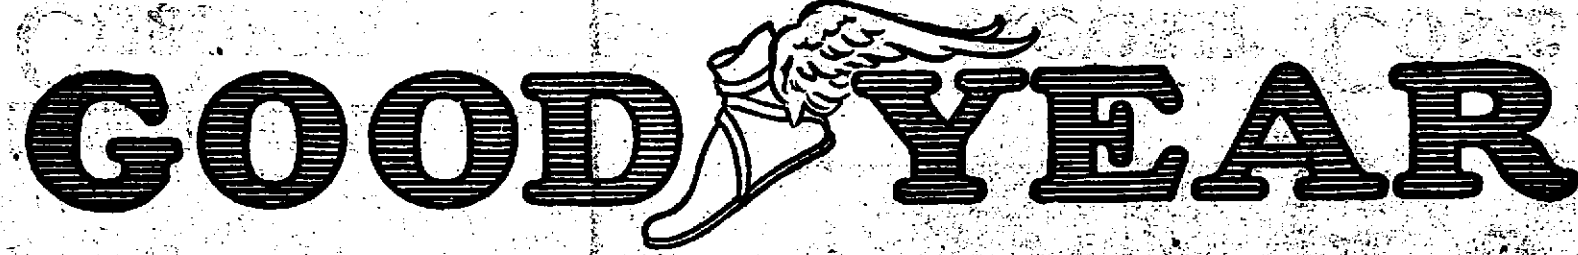

On your truck these Goodyear Cushions might reduce your repair costs to a minimum, and they might reduce breakage in the loads you carry, while piling up big mileage.

On the other hand, it might be that Goodyear Solid or Cord Pneumatic Truck Tires would save you the most money, give you the most satisfactory service.

Meaning that truck and truck tire economy can best be secured only when your tires are chosen to fit your hauling conditions—a method recommended and followed by us as Goodyear Truck Tire Service Station Dealers.

#### ADVISE "BRING YOUR OWN"

Milwaukee Cafe Owners Refer to Liquor New Year's Eve

Milwaukee, Wis., Dec. 31—"Bring your own," is the advice of hotel and cafe owners of Milwaukee to patrons reserving tables for special New Year's eve celebrations tomorrow.

Elmer Caldwell of Rushville called on his mother, Mrs. Caroline Caldwell, Sunday.

Mr. and Mrs. Evan Bullard of Indianapolis were the guests of Mr. and Mrs. James Rees Sunday.

This advice pertains to private stocks of liquors, wines and beers. Cellars are reported well filled and guarded and every assurance is given that the advice will be heeded. Those not so fortunate will content themselves with candy and soft drinks, ice cream and sherbets. Ice cream manufacturers are manufacturing large reserve supplies to take care of the Christmas trade.

The prayer meeting service of the St. Paul's Methodist Episcopal church will be held this week in the parlors of the church on Thursday evening at 7:30 o'clock. Everybody is cordially invited to attend.
